DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 31-40 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 31, it states that the first axis is in a plane that is between said display screen and a surface of said display opposite to said display screen (this situation is only possible when the three planes, a plane of the display screen, a plane of the surface of the display unit opposite to the display screen, and the plane of the axis, are in parallel) and is in contradiction with the statement "a first axis that is sometimes parallel to said display screen", because an axis in a plane parallel to a display screen will always parallel to the screen.

Allowable Subject Matter

3. Claims 8-28 and 30 are allowed.
4. The following is a statement of reasons for the indication of allowable subject matter: The best prior art of record, Carroll et al. (6,285,757 B1), Smith et al. (US

5,398,991), and SanGiovanni (US 2002/0102946 A1), taken alone or in combination, fails to teach or reasonably suggest a portable terminal comprising a hinge case including a second rotary mechanism for rotatably coupling a display unit to a forearm mounting unit, wherein said second rotary mechanism is to allow said display unit to rotate relative to said forearm mounting unit about a second axis being always parallel to a display screen, for 360° as set forth in claims 8-28 and 30.

Conclusion

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
